Change in appearance (surface texture) of the TITLE: BRT22 and BRT23 product series

DESCRIPTION OF CHANGE:

There are 2 changes included in this PCN.

- 1. The surface texture of the package is being changed from rough to smooth.
- 2. There will be a slight change to the marking of the product, the UL system code and the device option identifier is being removed. The UL system code is being phased out in favor of listing the actual product on the certificate.
