

Kit of 9 punches number 0 to 9 (number 9 valid for number 6); ideal for manual punching and marking steel with resistance R up to 80 kg/mm².

Simple use

This set of 9 engraving number punches allows suitable metal parts to be permanently marked with any number by means of percussion.

Wide range

BETA's wide range allows the character size that best suits individual requirements to be chosen: heights of 3, 4, 5, 6, 8 mm!

Organisation and convenience

The set is supplied in a convenient plastic case for easy storage and organisation.

Detail and customisation

Each stamp is marked with: engraving character, character height in mm and inches, and BETA's logo.

	art.	H mm	L mm	A mm	g
