

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **3/4 in Length:** Suitable for applications requiring compact and efficient bearing solutions.
- **1.12 in Outside Diameter:** Allows for easy fitting into standard housings, enhancing versatility.
- **0.87 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal functionality and reduced friction.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-816

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient rotational movement in various mechanical applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding environments. The bearing's compact design ensures easy integration into existing systems, providing reliable performance and reduced maintenance needs.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.87 in

Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	1.12 in
