TECHNOLOGY

AIRFLEX *

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Healthy Workplace Project

EMPLOYEE : * Health and Wellbeing of the individual * Improved hygiene facilities * Improved awareness of benefits of good hygiene * Being cared for by their employer * Reduction of illness at work and home

EMPLOYER : * THE HEALTHY WORKPLACE PROJECT*, creating a healthier and more engaged workforce * Reduced sickness helps lower absenteeism * Engaged employees are more likely to "go the extra mile"
