

ISO 11611 :Classe 1
A1+A2

ISO :11611

MECHANICAL PERFORMANCE:

- ISO 13688: 2013/ A1: 2021
- ISO 11611: 2015 Classe 1 A1+A2
- In accordance with EU Regulation 2016/425. Declaration available at: guyard-sa.com

Description:

Cap with a visor made of Proban-treated cotton canvas. Equipped with an elastic band for adjustment inside the central part. This garment can also be made in various colors such as green, red, blue, orange, and gray. Stitched with para-aramid thread.

Recommendations:

For welding, grinding, and sanding, following the indicated class. The garment offers limited flame spread protection, protection against small splashes of molten metal, radiant heat, and accidental electrical contact for short durations.

Limitations of Protection:

Type of protective clothing used during welding and related techniques, class 1.
Not suitable for handling chemicals or liquids.
This garment should be properly tightened and closed, and always used in combination with a protective jacket with similar protection performance to ensure complete coverage of the adjustment area.
For complete protection against the risks encountered by welders, additional PPE covered by other standards should be worn to protect the body, face, hands, and feet.

Conditioning, Maintenance & Storage:

The garment is packaged individually. No special maintenance is recommended. It is advised to store the products in a place protected from light, cool, dry, and well-ventilated. Before use, visually check that the garment does not have any defects, holes, tears, or unusual wear. If the user experiences symptoms similar to sunburn, there may be exposure to UVB rays. In such cases, the garment should be repaired or replaced, and additional protective layers may be considered for better resistance.

Recycling:

Safe disposal by mechanical destruction or incineration.

Marking:

The CE marking on this cap indicates compliance with the essential health and safety requirements of the European Regulation 2016/425 concerning personal protective equipment (PPE).

Safety:

We declare that the product does not contain substances at levels known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use. Its design does not cause any irritation or discomfort to the wearer.
