- Safe working load with a choke hitch of 2400 kg
- Length of 1.5 m
- Width of 60 mm
- Endless fittings

RS PRO 1.5m Yellow Lifting Sling Round, 3t

RS Stock No.: 729-3094

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These lifting slings from our trusted RS PRO series can safely bear up to 4200 kg. They provide exceptional shock absorption and wear resistance with 2- and 4-leg load capacities and are a safer alternative to using chain slings. Made from a polyester material, they combine strength and flexibility in a lightweight design. Polyester is also highly resistant to oil, grease and most acids and won't lose strength in water. What's more, a safety factor of 7:1 means that 7 times as much force as the working load limit has to be applied before they will begin to fail. This bright yellow version is dye able so can be colour-coded for your convenience.

General Specifications

Sling Type	Round
