

MRLC13-5-3-A

Ruland MRLC13-5-3-A, 5mm x 3mm Long Slit Coupling, Aluminum, Clamp Style, 13.0mm OD, 20.0mm length

Description

Ruland MRLC13-5-3-A is a clamp style slit coupling with 5mm x 3mm bores, 13.0mm OD, and 20.0mm length. It is manufactured from a single piece of material and has two sets of intermittent slit cuts allowing for a maintenance-free coupling with high torsional stiffness in relation to comparable couplings, such as beam type. MRLC13-5-3-A is commonly used in precise positioning applications found in semiconductor, medical, and test and measurement equipment. This long style slit coupling has added torque and misalignment capabilities compared to the short style. MRLC13-5-3-A is zero-backlash, has a balanced design for reduced vibration at speeds up to 12,000 RPM, and can accommodate all forms of misalignment with light bearing loads. It is manufactured by Reliance Precision Ltd. in their County Cork, Ireland factory from 7075 aluminum for lightweight and low inertia. MRLC13-5-3-A is inventoried by Ruland and RoHS3 and REACH compliant.
