

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance
- **20.05 mm Outer Diameter:** Fits standard housings, facilitating easy installation
- **10 mm Length:** Compact design suitable for space-constrained applications
- **13.98 mm Shaft Diameter:** Compatible with standard shaft sizes, enhancing versatility
- **Self-Lubricating:** Reduces the need for maintenance, improving operational efficiency

RS PRO Sintered Bronze Plain Bearing, 20.05 mm Outer Diameter

RS Stock No: 528-308

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery and equipment, it offers excellent performance with minimal maintenance. The sintered bronze material ensures durability and resistance to wear, making it suitable for various industrial environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	13.98 mm

Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	20.05 mm
