Product Description

Buy this product from www.rspro.com

The RS Pro Heavy-Duty Connector series is a full range of heavy-duty inserts, housings, crimps and accessories. The housing is produced from corrosion resistant powder coated die cast Aluminium with locking levers made from galvanized Iron. These offer IP65 protection and come in standard or tall variations with both single and double locking options. Ideal for harsh environments such as industrial machinery, food and beverage machines, packaging machines or oil and gas processing.
