#### Detailed technical data

#### **Features**

| Device type                     | Photoelectric sensors                                  |
|---------------------------------|--------------------------------------------------------|
| Sensor/ detection principle     | Photoelectric retro-reflective sensor, autocollimation |
| Dimensions (W x H x D)          | 12.2 mm x 49.8 mm x 23.6 mm                            |
| Housing design (light emission) | Rectangular                                            |
| Mounting hole                   | M4                                                     |
| Sensing range max.              | 0 m 5 m <sup>1)</sup>                                  |
| Sensing range                   | 0 m 3 m <sup>1)</sup>                                  |
| Type of light                   | Visible red light                                      |
| Light source                    | PinPoint LED <sup>2)</sup>                             |
| Light spot size (distance)      | Ø 45 mm (1.5 m)                                        |
| Wave length                     | 650 nm                                                 |
| Adjustment                      | Cable<br>Single teach-in button                        |
| AutoAdapt                       | <b>√</b>                                               |
| Special applications            | Detecting transparent objects                          |

<sup>&</sup>lt;sup>1)</sup> Reflector PL80A.

<sup>&</sup>lt;sup>2)</sup> Average service life: 100,000 h at  $T_U$  = +25 °C.

### Mechanics/electronics

| Supply voltage                   | 10 V DC 30 V DC <sup>1)</sup>                    |
|----------------------------------|--------------------------------------------------|
| Ripple                           | < 5 V <sub>pp</sub> <sup>2)</sup>                |
| Current consumption              | 20 mA <sup>3)</sup>                              |
| · ·                              |                                                  |
| Switching output                 | PNP <sup>4)</sup>                                |
| Switching mode                   | Light switching <sup>4)</sup>                    |
| Output current I <sub>max.</sub> | $\leq$ 100 mA $^{5)}$                            |
| Response time                    | < 0.5 ms <sup>6)</sup>                           |
| Switching frequency              | 1,000 Hz <sup>7)</sup>                           |
| Connection type                  | Male connector M8, 4-pin                         |
| Circuit protection               | A <sup>8)</sup> B <sup>9)</sup> C <sup>10)</sup> |
| Protection class                 | III                                              |
| Weight                           | 13 g                                             |
| Polarisation filter              | <b>√</b>                                         |
| Housing material                 | Plastic, VISTAL®                                 |
| Optics material                  | Plastic, PMMA                                    |
| Enclosure rating                 | IP66<br>IP67<br>IP69K                            |
| Special feature                  | Detecting transparent objects                    |
| Ambient operating temperature    | -40 °C +60 °C                                    |
| Ambient temperature, storage     | -40 °C +75 °C                                    |
| UL File No.                      | NRKH.E181493                                     |

 $<sup>^{1)}</sup>$  Limit values when operated in short-circuit protected network: max. 8 A.

### Safety-related parameters

| MTTF <sub>D</sub> | 1,232 years |
|-------------------|-------------|
| DC <sub>avg</sub> | 0 %         |

#### Classifications

| ECI@ss 5.0   | 27270902 |
|--------------|----------|
| ECI@ss 5.1.4 | 27270902 |
| ECI@ss 6.0   | 27270902 |
| ECI@ss 6.2   | 27270902 |

 $<sup>^{2)}\,\</sup>mathrm{May}$  not exceed or fall below  $\mathrm{U}_{\mathrm{V}}$  tolerances.

<sup>3)</sup> Without load.

<sup>&</sup>lt;sup>4)</sup> Q = light switching.

 $<sup>^{5)}</sup>$  At and above Tu 50 °C, a max. load current of Imax. = 50 mA is permitted.

<sup>&</sup>lt;sup>6)</sup> Signal transit time with resistive load.

<sup>7)</sup> With light/dark ratio 1:1.

 $<sup>^{8)}</sup>$  A =  $V_S$  connections reverse-polarity protected.

 $<sup>^{9)}</sup>$  B = inputs and output reverse-polarity protected.

 $<sup>^{10)}</sup>$  C = interference suppression.

# SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
