

Powerful & versatile cleaning wipes for hands, tools & equipment

De-Solv-it® Multi Task Wipes

FEATURES/BENEFITS:

Powerful & Effective	Removes silicone sealants, mastics, adhesives, resins, heavy oils, greases, wet paints, inks, wet PU foam, tar, bitumen, fillers
Versatile	For use on hands, skin, surfaces, tools, equipment, worktops, paint rollers, brushes, glass
Moisturising	Contains emollients to leave hands clean, dry and moisturised.
Scientifically Tested	Certified to BS EN1276 standard; dermatologically tested
High Quality	Low-lint, strong wipes suitable for demanding applications
Convenient	No need for water, ideal when out in the field, the workshop or on production lines
Pleasant Odour	Leaves hands smelling fresh

USE:

Tools/Equipment/Surfaces: Wipe the contaminated surface thoroughly with pre-impregnated wipe. If necessary wipe surface dry with a dry wipe.

Hands: Remove any excess residue from hands, wipe the skin thoroughly with wipe and allow skin to dry.

Keep the tub lid closed when not in use to prevent wipes drying out.

Wipe Dimensions: 200mm x 250mm

APPLICATIONS:

For cleaning hands, tools, surfaces & equipment of sealants, mastics, heavy oils, greases and other industrial contaminants whether on site or out in the field.

This formulation has been assessed under the Cosmetic products (Safety) Regulations 2009.
