## RS PRO Crimping Tool For Bullet Terminals

A simple tool that does the job. securely crimp non-insulated bullet connectors.  
The perfect tool for the classic car enthusiast. Designed for crimping non-insulated brass bullet connectors.  
Long handles for crimping firmly with less effort.

### Benefits

- Use to crimp uninsulated brass bullet connectors.
- Simple to operate, yet effective.
- Set the bullet in the receptor hole, insert stripped wire and close handles firmly.
- Designed for operator comfort.
- Built to last.

### Applications

Designed for use by classic car enthusiasts for crimping traditional, Lucas-style 4.7 mm brass bullet crimp terminals with cable sizes up to 2 mm<sup>2</sup> or AWG 14.

Use on British classic cars and motorcycles, for example:

- Cars: Austin, Morris, Wolsey, Riley, Mini, MG, Jaguar, Triumph, Rover and Land Rover.
- Motorcycles: Triumph, Norton and BSA.

Use together with the RS PRO Bullet & Snap Connector Insert Tool 150 mm for inserting two bullet terminals into a housing to create a secure connection.
