

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **Compact 5/8 in Length:** Allows for easy installation in tight spaces, optimising equipment design.
- **0.62 in Outside Diameter:** Ensures compatibility with a wide range of housings, offering versatility in application.
- **0.37 in Shaft Diameter:** Suitable for supporting shafts of various sizes, enhancing operational flexibility.
- **Low Friction Operation:** Reduces energy consumption and heat generation, improving efficiency.

RS PRO 5/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-093

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for supporting rotating or sliding shafts. The bearing's compact design ensures easy integration into existing systems, enhancing performance and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.62 in
