

MAINTENANCE SUITCASE WITH WHEELS

DESCRIPTION

A COMPACT SUITCASE FOR STORING AND TRANSPORTING ALL YOUR TOOLS

Accordion structure for full visibility and easy access to your tools

3 parts for optimum storage and access:

The bottom of the suitcase with 1 compartment in length, 4 compartments with removable separations, 3 buckets with lid (supplied)

A detachable accordion-style structure with 3 slots with rubber pins for holding and protecting pliers, screwdrivers, wrenches, etc.

A fixed separation between the bottom and the trestle that holds the tools in place during transport and can serve as a backup work plan

No risk of tipping with its automatically retractable feet that block the lid in the open position

Fibreglass reinforced polypropylene body and lid for added strength

Large corrosion resistant metal fasteners for greater durability

Ergonomic 3-position aluminium telescopic handle with 75 mm diameter wheels (roller type) mounted on ball bearings for maximum handling

Thick rubber covering the handle for added comfort

Customizable label holder and padlock option (not included)

- Dimensions: 54 x 40 x 43,5 cm
