#### **Product Details**

The RS Pro ST12 series is a range of small but robust waterproof connectors, which are sealed to IP67. Threaded coupling ensures a secure connection, and black nickel-plated zinc alloy bodies provide an attractive finish. Versions are available for in-line cable to cable and for cable to panel connections. Plugs and receptacles are available with either male pins or female sockets. These products are suited for use in indoor or outdoor applications where space is a consideration. Typical applications include communications, medical and test & measurement equipment.

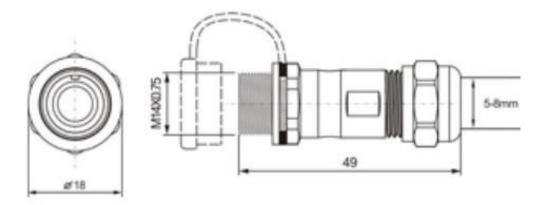

#### **Features and Benefits**

- Threaded Coupling
- IP67
- Black Nickel-plated
- 2-9 Poles
- Cable to Cable and Cable to Panel Connections
