DESCRIPTION

SALENTO LOW is a sporty safety shoe in S1PS protection class with highly breathable suedeleather and textile upper

TOE-CAP

COMPONENTS

DAMPER PRO: New insole in open-cell PU with antibacterial fabric, shaped and anatomical, it is designed to increase comfort, shock absorption, especially in the heel area, improving the discharge of energy accumulated while walking and moving weights

INSOLE

BI-ALLOY: New ultra-light and non-magnetic toe cap, made with approximately 56% recycled aluminum. The special production system makes it extremely reliable even in the most critical situations. The toe-protection band makes it very comfortable.

STANDARD LABEL

PLUS

BI-FRESH PLUS: Three-dimensional Polyester lining with high abrasion resistance and breathability

 Calzaturificio 5BI S.r.l.
 Via Trani, 94-100
 76121 Barletta (BT)

BI-SHANK: is the new system designed to stabilize the sole by counteracting longitudinal imbalances and facilitating the natural walking motion.
