RS Pro S.84 Hot Forged Brass Ball Valve - 1/4" - 2"

Legionella is a bacterium that lives and proliferates in natural and artificial aquatic environments at temperatures ranging between 5.7°C and 55°C and standing up to acidic and alkaline environments.

New s.84W is approved for use with drinking water; the specific ball design avoids water stagnation and the spread of bacteria in the system.

Quality:

- · 24h 100% seal test guaranteed
- Dual sealing system allows valve to be operated in either direction making installation easier
- No metal-to-metal moving parts
- No maintenance ever required
- Handle clearly shows ball position
- Silicone-free lubricant on all seals
- Travel stops on body to avoid stresses at stem
- Chrome plated brass ball for longer life with rinse hole

Body:

- Hot forged sand blasted, external nickel plated brass body and cap sealed with Loctite® or equivalent thread sealant
- Finest brass according to EN 12165 and EN 12164 (formerly DIN 17660 and UNI 5705-65) specifications

Stem:

- · Blowout-proof nickel plated brass stem
- Two EPDM O-Rings at the stem for maximum safety

Threads:

EN 10226-1 parallel female by female threads

Flow:

· Full port to DIN 3357 for maximum flow

Handle:

 Geomet® carbon steel handle with thick PVC dip coating. Handle coating offers both thermal and electrical protection

Working Pressure:

- 40 Bar (600 PSI)
- non-shock cold working pressure
- DIN-EN 13828 limitations for Potable Water: 10 bar (Kg/cm²) nonshock cold working pressure and +65°C temperature (occasional excursions up to 90°C are permitted for a period of 1 h maximum)

Working Temperature:

- -40°C (-40°F) / +150°C (+302°F)
- Warning: freezing of the fluid in the installation may severely damage the valve

Datasheet

RS Pro S.84 Hot Forged Brass Ball Valve

Approved by or in compliance with:

- DVGW (Deutschland)
- · GOST-R (Russia)
- · Hygiene and epidemic center in Moscow city (Russia)
- · Attestation de Conformité Sanitaire (France)
- RoHS Compliant
- EAC Declaration of conformity (Russia-Kazakhstan-Belarus)

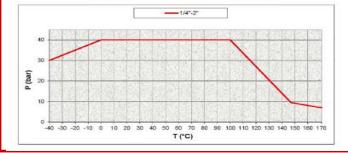

DN shows the nominal flow diameter. Actual flow diameter complies with full port DIN 3357 part 4.

NOTE: Approvals apply to specific configurations/sizes only.

	Part Description	Q.ty	Material	
1	Nickel plated body (external treatment)	- 1	CW617N	
2	Seat	2	PTFE	
3	Chrome plated ball with rinse hole (the rinse hole is expected from 3/4" up to 2" sizes)	1	CW617N	
4	Nickel plated end cap (external treatment)	1	CW617N	
5	Nickel plated stem O-ring design	1	CW617N	
6	Geomet® nut	- 1	CB4FF	
7	O-Ring	2	EPDM	
8	Green PVC coated Geomet® steel handle	1	DD11
