

## SHOWA 451

Le gant à isolation thermique 451 est conçu pour tenir chaud par temps froid. Sa doublure sans couture réduit l'irritation et le poignet élastique empêche la saleté d'entrer dans le gant. Grâce à son revêtement en caoutchouc naturel à la paume, le gant 451 résiste à l'abrasion tandis que sa surface de préhension rugueuse offre une meilleure prise. Avec ce gant, la main est également protégée contre les détergents agressifs et les alcools.
