

FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, ensuring long service life.
- **10 mm Length:** Suitable for applications requiring compact components.
- **16.04 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **9.98 mm Shaft Diameter:** Designed for precision fit, reducing vibration and noise.
- **Plain Bearing Design:** Offers low friction and smooth operation, enhancing efficiency.

RS PRO 10 mm Plain Bearing, Sintered Bronze

RS Stock No: 528-963

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring smooth, low-friction movement. Made from sintered bronze, it offers excellent durability and reliability in various industrial settings. Its compact size makes it ideal for use in tight spaces, providing efficient performance and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	9.98 mm

Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	16.04 mm
