Express Folding Workbench**

STANLEY® FATMAX™ Express Folding Workbench – FMST1-75672

The STANLEY® FATMAX® EXPRESS Folding Workbench is perfect for professional tradespeople who require a robust, portable working surface with substantial material holding capacity. Ergonomically engineered, the EXPRESS Folding Workbench has been designed with a spacious work platform (85 x 60cm) suitable for a host of pro applications.

Compatible with an extensive range of vertical and horizontal clamps, including the STANLEY® FATMAX® Trigger Clamp series, the EXPRESS Folding Workbench features a series of dog bench holes and x-shaped grooves, for hassle-free clamping of wood, metal or plastic items at any angle.

Thanks to its quick collapsing, durable metal legs, the EXPRESS Folding Workbench can be easily set up in seconds and is exceptionally solid and stable, supporting loads of up to 450kg. At the end of a job, simply fold the workbench effortlessly into a compact unit for easy storage or carry with the integral carry-handles for hassle-free transportation.

- Metal legs support up to 450Kg Large work surface (85 x 60 cm) for versatility of application
