

## LOGIC PLUS ${ }^{\text {TM }}$

RANGE INTRODUCTION

Logic Plus ${ }^{T M}$ wiring devices from MK Electric have been designed to perfectly complement modern interiors, offering an unobtrusive and sophisticated look totally in keeping with today's design.

Technically, they exceed British Standard requirements with patented features that make these products the most advanced and safest available.

Logic Plus ${ }^{\text {TM }}$ products are made from a high grade thermoset material which has an inherent antimicrobial property. In independent tests, the Logic Plus ${ }^{\text {TM }}$ products were equal to, or exceeded, competitor 'Anti-Bac' products when tested for resistance to MRSA, E.Coli, Salmonella and Klebsiella pneumoniae.

They are easy to install and available through our extensive distributor network. The range is backed by MK's quality and reliability and provides the largest selection of wiring devices in any single range.

## HOW TO SPECIFY

A Urea moulded Anti-Bacterial range of wiring accessories, designed with a soft curved edge and a chamfered top edge that prevents dust collection whilst offering a slim unobtrusive appearance. Cable connections must be upward facing, with easy to identify white markings on a dark background and grouped in a straight line with captive terminals screws for ease of installation. All sockets to have a 3 pin operated shutter safety mechanism and double pole switching, with the contacts arranged such that the neutral pole makes before and breaks after the live pole to improve safety.

## FEATURES \& BENEFITS

## TOTAL SAFETY

3-pin operated 'child resistant shutter system', which is designed to inhibit access to the electricity supply, unless all 3 pins of a standard British 13A plug are in position. Logic Plus ${ }^{T M}$ products include an inherent antimicrobial property as a result of the high grade thermoset material used to manufacture.

## UNRIVALLED QUALITY AND RELIABILITY

Products are made from the very best materials and production processes. All products are 100\% tested.

## QUICK AND EASY TO INSTALL

Features to ensure a quick and easy installation come as standard across the range, including in-line terminals, funnel entrances to terminals, backed out and captive screws and clear terminal markings.

## EXTENSIVE RANGE

Outstanding selection of wiring devices providing a total solution.

## 20 YEAR GUARANTEE

Gives total peace of mind to you and your customers. (Up to 10 year guarantee on electronic products)

Technical Hotline ＋44（0）1268 563720

CONTOURED TO BLEND INTO THE WALL

3－PIN＂CHILD RESISTANT SHUTTER SYSTEM＂
Designed to inhibit access to the electricity supply，unless all 3 pins of a standard British 13A plug are in position

HIGH GLOSS，HIGH QUALITY THERMOSET MATERIAL
Inherent antimicrobial properties，resists
scratching，maintains appearance

TERMINAL SCREWS
Backed out and held captive
within the terminal housing

Allow wire to be cut stripped to the same length

FUNNEL ENTRANCE TO TERMINALS
Terminals are upwards facing to make installation easier

DUAL EARTH TERMINALS
Available for installations that require high integrity earthing

Comprehensive range of Part M compliant products including socket outlets with outboard rockers， wide rocker switches and graphite coloured frontplates

Combined TV，FM，DAB，satellite and telephone sockets save on installation time and space

Simple but effective screwless cord grip on connection units－ securely holds the cable

## Specification Notes

The 3 pin operated safety shutter makes Logic Plus ${ }^{\text {TM }}$ sockets the safest available.

Many sockets are fitted with two earth terminals to provide high integrity earthing.

Terminals are grouped in-line with terminal screws backed out ready for easy wiring. Clear marking on dark background makes the terminals easily identifiable.
