## Metal Detectable Earplugs

E-A-R™ No Roll Down detectable earplugs give users a hygienic, comfortable and high protection detectable earplug. Since there is no roll needed, these earplugs are very easy to insert, just use the soft flexible grip to push the earplug into position and achieve excellent protection. Because you do not have to touch the foam during the fitting, these are some of the most hygienic types of earplugs available.

**Features and Benefits:**

**Comfortable**

- + Unique cone shape inserts easily and “moulds” to ear canal for extra comfort

**Convenient**

- + The insertion stem eliminates the need to touch the tip: no need to clean your hands

**Effective**

- + Push-Ins, SLC80: 23dB (Class 4)
- + Express Pod, SLC80: 19dB (Class 3)

**Exclusive**

- + Metal oxide cord and hidden ball bearing design

**Compatible with**

- + Designed to be compatible with other PPE
