

FEATURES

- Flexible Straps
- Double Insulated Ground Straps
- Pouched & Tinned Ends
- Wide Temperature Range
- Made from Copper & Mylar

RS PRO 228.6 x 12.7mm Enclosure Accessory for use with RFI & EMI Shielding

RS Stock No.: 239-034

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This range of insulated earth straps (also known as shunt wires, grounding straps or braided harnesses) from RS PRO offer a variety of straps manufactured with copper and Mylar, providing RFI generated currents with a low impedance path. These high quality earth straps offer double insulation and are ideal for use with RFI & EMI shielded enclosures in a wide range of electrical applications. These insulated earth straps are available in various sizes to suit a range of applications.

General Specifications

Type	Insulated Earth Strap
For Use With	RFI & EMI Shielding
Application	Linking two chassis together / Linking cabinet panels to chassis ground / Linking CRT driver boards to chassis ground

Mechanical Specifications

Material	Copper
Dimension	228.6mm x 12.7mm
Length	229mm
Width	13mm
Height	12.7mm
