RS PRO ESD PU Tip Glove - Nylon

RS Stock No.: 712628, 712629,
712631, 712632

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

ESD PU Tip Gloves. Nylon with PU coating on the fingertip sections are ideal for handling electronic parts when needing extra grip or protection against sharp edges or pins. Ideal for use in cleanrooms as they help to prevent product contamination as well as offering excellent grip and ESD protection. Meanwhile, the uncoated back of the glove provides ventilation, helping to perspiration and clamminess. Colour-coded cuffs enable users to quickly find the size required.

General Specifications

Product Type	ESD PU Tip Glove - Nylon
Material	100% Nylon
Colour	White
Properties	Dissipative
Surface Resistivity	1 x 10 ⁻⁸ Ohms

Approvals

Standards Met	ANSI/ESD SP15.1
