10-Pack Dual-Access Laptop Lock, 6.6ft (2m) Keyed Alike and Combination Security Cable Lock for K-Slot Devices, Computer Anti-Theft Steel Cable, TAA

Product ID: DUALKA10-LAPTOP-LOCK

The K-Slot Laptop Lock is designed to deter theft of laptops and other devices. The security lock features a 6.5ft (2m) cut-resistant steel cable, making it a durable and reliable solution for securing laptops, monitors, printers, and docking stations with a Kensington style slot.

The hinge allows movement in two directions - 360-degree rotation around the lock head and 90-degree swivel, allowing a laptop, dock or other device to move freely and providing added convenience when locking or unlocking.

Each lock comes with a 4-digit resettable combination that allows the user to set their own combination code. For simplified IT management all 10 locks are keyed alike and the pack includes a set of four keys that allow the IT administrator to bypass the user-set combinations. Lost keys can be replaced upon request with valid proof of purchase.

Ensure the laptop or other device is protected wherever you work. The locking cable helps to deter theft in areas with high foot traffic including a wide range of retail, commercial, educational, and institutional environments. The cable lock is compatible with devices equipped with the industry-standard Kensington lock slot (K-Slot).

Ideal for use at the office or when traveling, the keyed and combination laptop lock features a strong steel cable (4.4mm diameter). To secure the device in different workspaces, the flexible cut-resistant steel cable bends to loop around a stationary post or object.

Certifications, Reports and Compatibility

Applications

Features

• 10-PACK K-SLOT LAPTOP CABLE LOCK: 6.6ft (2m) Cut-resistant steel security locking cable (4.4mm thick); 18mm diameter lock head; Compatible w/ Kensington style slot; Tested up to 442lb of pull force

• DUAL-ACCESS KEYED ALIKE & COMBINATION: Each lock has a four-digit user resettable code allowing personalized combinations for each user; 2 pairs of keys are included that allow IT managers access to all locks without managing multiple combinations or keys

• SCRATCH PROTECTION: Plastic lock spacers near the lock tip prevent scuffing on laptops or devices; Includes three different thicknesses to ensure a secure fit, no matter the device used

• COMPATIBILITY: Bulk-pack laptop locks secure a wide range of K-Slot devices including laptops, desktops, monitors, docking stations, and lab equipment (oscilloscopes, testing equipment)

• FLEXIBLE INSTALLATION: Included hook & loop strap keeps portable notebook cable lock organized; Use with anchors LTANCHOR & LTANCHORL (sold separately) to secure equipment to almost any surface; Additional keys can be ordered with proof of purchase

Hardware		
	Warranty	2 Years
	Compatible Lock Slot	Kensington Standard Slot (K-Slot)

Special Notes / Requirements		
	Patents and Licenses	Note: The pull force value may vary if the security slots do not comply with the design standards specified by their respective manufacturers

Environmental		
	Operating Temperature	-20 to + 40 degree C
	Storage Temperature	-20 to + 65 degree C
	Humidity	0% ~ 95%

Physical Characteristics		
	Color	Silver & Black
	Construction Material	Steel and Plastic
	Product Length	6.6 ft [2.0 m]
	Product Width	2.3 in [5.8 cm]

Product Height	1.2 in [3.1 cm]	
Weight of Product	6.2 oz [176.0 g]	

Packaging Information

Package Length	9.4 in [23.8 cm]	
Package Width	8.5 in [21.7 cm]
