

Secure 'n' Go - Secure Data USB Drive

The new Store 'n' Go Secure Data USB Drive addresses the burgeoning need of private users to keep data safe when being carried around.

The secure USB drive offers a powerful 256bit AES hardware-encryption and mandatory password which ensures that the data on the drive is always encrypted and secure. For added security, the USB device erases all data after 20 wrong password attempts.

It is available in three storage capacities - 4GB, 8GB and 16GB.

Secure 'n' Go - Security Consumer USB

	CAPACITY	PART NO	HARDWARE ENCRYPTION
