RS PRO Oil Test Kit & Analysis Service

RS Stock No.: 221-4799

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO Oil Test Kit is a high quality and easy to use oil testing kit that can be used to monitor the condition of oil and other lubricants in machinery, especially as part of preventative maintenance, and reducing unwanted and costly downtime. The box contains 10 sample and analysis test kits.

A specialist analysis service is included with the test kit to identify:

- *Adverse mechanical wear*
- *Oil health*
- *Moisture ingress*
- *Lubricant contamination*
