Technical sheet

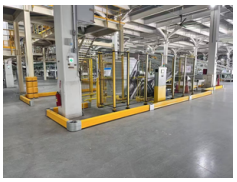

WALLIXBAR

WALLIX rail – 1000 × 120 × H 200 mm

High-performance floor protection barriers made from polyurethane and aluminium components, designed to secure traffic areas, protect infrastructure, and separate pedestrian and vehicle flows. Flexible and unbreakable, the system absorbs impacts without breaking and immediately returns to its original shape. Its modular design allows the creation of straight or corner protection systems according to requirements. All references are supplied with original fixings to ensure compliant installation. Professional installation is mandatory.

Customs code	39269090
EAN	3321360118332

Color : Yellow

Material : Polyurethane

Specifications :

- High-strength polyurethane protection rail .
- Flexible and unbreakable .
- Progressive impact absorption .
- Returns to its original shape after impact .
- Linear protection element .
- Compatible with WALLIX modules .
- Fixings included .
- Virtually maintenance-free.
