# Datasheet Noga Articulated Camera Arm Heavy Duty

RS Stock No: 264-3564

## Specifications:

Will accept SLR Camera, CCTV, Levels and Beacons mounted using a standard 1/4in. Whitworth thread

Ideal where Fast/Frequent camera adjustment/installation is required

Articulated Noga Centre lock arm allows camera to be easily moved to any position and clamped rigidly in one operation (which can also be partially clamped to allow manual panning of moving objects)

Ideal for use where tripods or conventional brackets are impracticable

Clamp jaw has maximum opening of 75mm, V groove for clamping round/square objects and plastic non-marking pads

Lower Arm Length	Upper Arm Length	Max Camera Weight	Arm Material	Arm Weight
