

Endress+Hauser Capacitance level switch FTC325-A2B31

Capacitance point level switch with intrinsically safe signal circuit for connection to a capacitance sensor.

Picture for reference only. Product appearance may vary based on configuration

Configuration of FTC325-A2B31:

Approval:	A	Non-hazardous area
Input; Housing:	2	3-wire analog; 22.5mm, DIN Rail
Power Supply:	B	20-30VAC/20-60VDC
Switch Output:	3	1x SPDT level + 1x SPDT alarm
Additional Option:	1	Basic version

Alternative part number: FTC325-A2B31
