PNEUMATIC

## DESCRIPTION

### 1/2" RATCHET WRENCH METALLIC SERIES

**ROBUST** Its one-piece structure (motor block+integrated handle) ensures great resistance to impacts. **PRACTICAL** Its 360 mm length allows access to areas with limited access (long wellbores, etc.). Its flared head ensures a better grip on the socket. **COMPETITIVE** Its maximum tightening torque (160 Nm - the greatest on the market today) allows it to ensure all the expected functions for 1/2" tightening. It's the ideal ratchet for automotive, HGV and bodywork maintenance. It can also be used for industrial maintenance. Exhaust to the rear. Well balanced, it is easy to handle, even when wearing gloves.

## STANDARDS / DIRECTIVES

2006/42/CE, ISO 15744
