

## Features

- Dimensions: 270 mm x 260 mm x 2 mm
- Sturdy mounting plate made of galvanized steel
- Option for ground connection on the mounting plate

## RS PRO Mounting Plate for Stainless Steel Enclosure 300 mm x 300 mm

RS Stock No.: 890172

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

## Product Description

The mounting plate is the ideal solution for the interior construction of stainless steel enclosures and enables the secure and organized installation of electrical and mechanical components.

Made of galvanized steel (DX51D+Z), it offers high strength and corrosion resistance and is suitable for use in industrial and demanding environments. Thanks to its precise fit, it integrates easily and supports the mounting of components such as control units or mounting rails.

## General Specifications

|                              |                                                                             |
|------------------------------|-----------------------------------------------------------------------------|
| <b>Use</b>                   | Accessories for General Purpose Enclosures                                  |
| <b>Body Material</b>         | Galvanized steel, 1.0226 (DX51D+Z)                                          |
| <b>Colour</b>                | Gray                                                                        |
| <b>Handheld</b>              | No                                                                          |
| <b>Flanged</b>               | No                                                                          |
| <b>Shielded</b>              | No                                                                          |
| <b>Number of Knockouts</b>   | 0                                                                           |
| <b>Transparent Door</b>      | No                                                                          |
| <b>Explosion Proof</b>       | No                                                                          |
| <b>Features</b>              | Perfect fit for stainless steel enclosures, stability, corrosion resistance |
| <b>Cover Screws Material</b> | A2-50 stainless steel                                                       |

## Mechanical Specifications

|                           |                        |
|---------------------------|------------------------|
| <b>Gasket Material</b>    | -                      |
| <b>External Height</b>    | 270 mm                 |
| <b>External Length</b>    | 260 mm                 |
| <b>External Width</b>     | -                      |
| <b>External Dimension</b> | 270 mm x 260 mm x 2 mm |
| <b>Weight</b>             | 1060 g                 |
| <b>Thickness</b>          | 2 mm                   |
