

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1.63 in Outside Diameter:** Ensures compatibility with a wide range of housings and applications.
- **1.24 in Shaft Diameter:** Designed to fit standard shaft sizes, providing ease of integration.
- **2-1/2 in Length:** Provides stability and support for various mechanical applications.
- **Plain Bearing Design:** Allows for quiet and smooth operation, ideal for environments where noise reduction is important.

RS PRO Sintered Bronze Plain Bearing, 1.63 in Outside Diameter

RS Stock No: 558-554

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low maintenance and high durability are essential, this bearing provides smooth operation and a long service life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.24 in

Mechanical Specifications

Length	2-1/2 in
Material	Sintered Bronze
Outside Diameter	1.63 in
