

## FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **12 mm Length:** Provides stability and support for shafts, enhancing operational efficiency.
- **10.03 mm Outside Diameter:** Ensures compatibility with a wide range of housings, facilitating easy installation.
- **5.99 mm Shaft Diameter:** Designed to fit standard shaft sizes, ensuring smooth operation and minimal friction.

## RS PRO Sintered Bronze Plain Bearing, 12 mm Length

RS Stock No: 528-953

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable and efficient performance in various industrial applications. Known for its durability and low friction, this bearing is ideal for use in environments where maintenance is challenging. Its compact design ensures easy integration into existing systems, offering a cost-effective solution for reducing wear and extending the lifespan of machinery.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	5.99 mm

## Mechanical Specifications

Length	12 mm
Material	Sintered Bronze
Outside Diameter	10.03 mm
