

Features

- Ideal alternative to CFC-based solvents and more environmentally friendly
- Non-aggressive cleaner, suited for sensitive PCBs and peripherals leaving no damage
- All-purpose cleaner and degreaser for multiple applications including most plastics
- Safely removes flux from PCBs
- Completely miscible with water for easy dilution

RS PRO Electronic Cleaner

RS Stock No.: 0315454

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

A set of 3 x 1-litre bottles of Isopropyl Alcohol (IPA), which is a fast-drying, but flammable liquid used for cleaning and degreasing in many industrial and pharmaceutical processes and applications.

It leaves no residue when cleaning and emits a slight odour to assist in monitoring overexposure in poorly ventilated areas for health reasons. This IPA liquid is a highly effective, general-purpose solvent used as a cleaning solution to remove dirt, oil, and grease from various materials and components, including fragile and sensitive electronics, PCBs (Printed Circuit Boards), and other peripherals.

General Specifications

Cleaner Type	Isopropyl Alcohol
Package Type	Bottle
Package Size	3 x 1 L bottles
Application	PCBs
Appearance	Clear, Colourless Liquid
Boiling Point	82°C
Flash Point	12°C
Density	0.79 g/cm ³
