RS Pro Gas Detector, LED

	Detector	Transmitter
Frequency response	20 to 100kHz	40kHz
Operating temperature	0 to 50°C	0 to 50°C
Operating humidity	<80% RH	<80% RH

Product Details

Audio/Visual Gas/Air Leakage Detector

A ultrasonic detector designed to locate gas or air leaks which can be used with the transmitter to locate roof, windshield, gasket leaks, and the indication of pipes and conduits.

Visual bar LED display panel and audible indication

Requires 2 x PP3 batteries (stock no. 394-9059)

Gases Detected:

Non-specific

Supplied with

full instructions; ear pieces; accessories suitable for use in awkward places; moulded case; instruction manual.

> ⓘ **Warning**
>
> Not designed to detect the leakage of flammable gas

Specifications:

Application	Conduit & Pipe Identification, Door & Window Leaks
Display Type	LED
Power Source	Battery
Battery Type	9V
Dimensions	255 x 70 x 28mm
Maximum Operating Temperature	+50°C
Model Number p	GS-5800
Minimum Operating Temperature	0°C
Height	28mm
Width	70mm
Length	255mm
