

Features:

- Approved according to ADR class 9, P903 and P908
- When the lithium-ion battery ignites, the explosion will be kept inside the chest
- Secure cable entry to safely charge batteries
- With a pressure valve to release excess pressure in the event of a fire
- With activated carbon filter that reduces gases and soot formation in the event of a possible fire
- Can be optionally locked with a padlock

RS PRO Battery Storage Boxes

RS Stock No: 0304032

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

The latest innovation within our Storage of Hazardous Substances Division, explosionproof chests for the storage of lithium-ion batteries. This contains a unique safety system that automatically closes in case of fire. When a lithium-ion battery ignites, the explosion and fire remain in the chest, protecting the surrounding area. These powerful chests not only provide secure storage, but also the ability to charge batteries while stored in the chest.
