

FEATURES

- **Hex Socket Drive:** Allows for efficient torque application and easy installation.
- **Bright Zinc Finish:** Provides corrosion resistance, enhancing durability in harsh environments.
- **Grade 12.9:** Offers high tensile strength for demanding applications.
- **Carbon Steel Material:** Ensures robustness and long-lasting performance.
- **Metric Thread:** Compatible with standard metric fasteners.
- **DIN 912 Standard:** Guarantees compliance with industry specifications.

**RS PRO M16 Hex Socket Cap Socket Screw,
55 mm Carbon Steel**

RS Stock No: 606-386

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO M16 Hex Socket Cap Socket Screw is designed for high-strength fastening applications. Made from durable carbon steel with a bright zinc finish, this screw is ideal for use in environments where reliability and performance are critical. Its hex socket drive ensures easy installation and removal, making it a versatile choice for various industrial settings.

General Specifications

Drive Type	Hex Socket
Finish	Bright Zinc
Grade	12.9
Head Shape	Hex Socket Cap
Product Type	Socket Screw
Thread	Metric

Mechanical Specifications

Length	55 mm
Material	Carbon Steel
Screw Diameter	M16

Approvals

Standards/Approvals	DIN 912
