# New Bosch safety at work range – protection and wearer comfort

The work environment is not always free of dangers. Injuries in the eyes and ears as well as hearing loss or inhalation of harmful substances are the most common types of accidents at the workplace.

Safety products are needed! However, wearing safety products over a long period of time can be inconvenient and comfort plays a very important role in this.

**Bosch safety products meet the strictest international standards and have been developed to provide exceptional wearer comfort.**

# Bosch hand protectors – protective gloves for optimum safety

**Knitted glove with innovative coating**

- ▶ For dry and wet applications
- ▶ Excellent sensitiveness
- ▶ Very good grip
- ▶ Breathable

**Manufactured without harmful substances**

- ▶ Allergy-free

## Leather protective gloves

- ▶ High-quality leather protective gloves made of split leather or full-grain leather, rubberised fabric cuff for pulse protection
- ▶ **Properties:** high leather quality, supple leather, good workmanship on seams, tested for harmful substances
- ▶ **Application range:** all-round, transportation, assembly, heavy workpieces

Concrete  
and Stone  
programme

Page 14 – 42

**The Concrete and Stone  
programme**  
for all applications

# SDS plus-7 – better performance with the 5-cutter full tungsten carbide head

The 5-cutter full tungsten carbide head of the SDS plus-7 offers 3× lifetime (against 2-cutter drill bits) and reliability without jamming when drilling in concrete with rebar. Thanks to the 5 cutters, the SDS plus-7 has highest demolition power and with the optimised flute high drilling speed is reached.

## Benefits

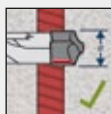

- ▶ With the SDS plus-7 I get a drill bit with a very long lifetime while delivering a constantly high performance even in rebar

**activeteq**  
Active centring tip  
for active cutting in  
concrete

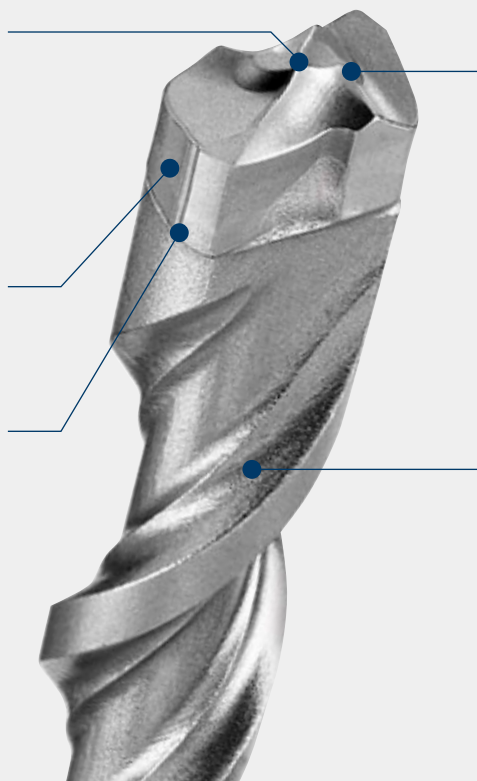

**Fine grade high durable carbide**  
Long lifetime/  
best wear resistance

**Wear mark**

The visibility of the wear mark indicates if the diameter of the hole is still in tolerance for metal anchor setting

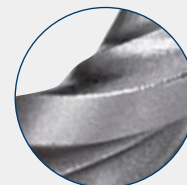

**5-cutter full head carbide, diffusion bonding technology**

Shaped cutters for highest demolition force, exceptional lifetime and best wear resistance. No jamming in rebar

**2+2 flute design**

Vibration-optimised flute design for the best power transfer and speed

# Special Offer

## SDS plus-7

**Up to - 10 %**

### SDS plus-7 hammer drill bits

# plus-7

- ▶ Suitable for masonry, concrete and reinforced concrete
- ▶ Appropriate for all rotary hammers with SDS plus holder

**long LIFE** × 3 **fast DRILL**

# CYL-9 Multi Construction – drilling in all kinds of materials

- ▶ **Suitable for** practically all materials in interior fitting work, e.g. concrete, masonry, brick, eternit, light building materials, multi-layer materials, ceramics and tiles, wood, plastic, sheet metals, aluminium
- ▶ Perfect results when drilling with or without impact
- ▶ Drill bit colour: blue, polished

## Benefits

- ▶ With the CYL-9 Multi Construction, I can drill in all kinds of materials without changing the drill bit, even in very thick walls with insulation material

# Special Offer

## CYL-9 Multi Construction

**Up to - 10 %**

With the additional lengths of the CYL-9 Multi Construction, façade installations – even through insulated walls – can be done easily with one drill bit.

### NEW! CYL-9 Multi Construction multi-purpose drill bits

- CYL-9 MultiConstruction** ▶ **Focus products**  
 ▶ Insulation range – additional lengths

# The long life chisel programme – always the right chisel for each application

## Benefits

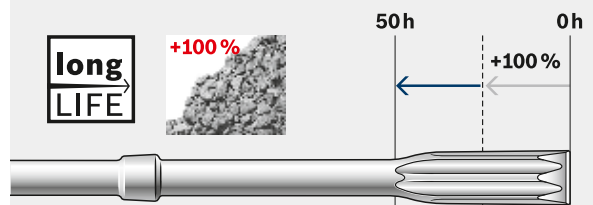

- ▶ The long life chisels allow me to work more efficiently thanks to an up to 30% higher removal rate and 100% longer life time

### Increased power output

- ▶ No jamming
- ▶ Lifetime of 100 hours
- ▶ 30% higher material removal rate than standard pointed chisels

### Double material removal rate

- ▶ 100% longer lifetime due to the new self-sharpening cutting edge. Therefore removes twice as much material

# Special Offer

**Up to - 10 %**

## NEW! Chisels with SDS-max shank

## 2-Step Solution – high-quality weld treatment

# 2-Step Solution – high-quality surface treatment

The Bosch 2-Step grinding system for angle grinders enables the user to efficiently grind weld seams and then produce an even surface in only two steps.

## 1<sup>st</sup> Step: Fibre disc

- ▶ **Removing** the weld seam as fast as with flap discs or bonded grinding wheels

## 2<sup>nd</sup> Step: SCM Fleece disc

- ▶ **Refining** the surface, even deep scratches without grinding off too much of the material
- ▶ **Benefit:** only two steps to an even and high-quality surface

SCM = Surface Conditioning Material
