Reproduction, distribution or sale of this document or communication of its contents to others without express authorisation is prohibited. Offenders will be held liable for damages. All rights reserved in the event that a patent, utility model or design patent is registered.

All product designations and brand names used are the property of the owners and not explicitly identified as such.

All technical data are subject to change according to technical updates.

## Foreword

These repair instructions are valid for the quarter-turn actuator listed on the title page to the exclusion of any liability claims.

The general terms and conditions of business (Allgemeinen Geschäftsbedingungen - AGB) of Festo AG & Co. KG apply; these can be read on the Festo website (→ [www.festo.com](http://www.festo.com)).

Differences compared to the descriptions in these repair instructions may arise depending on the design and/or modification status of the quarter-turn actuator. The user must check this prior to carrying out the repair and take the deviations into consideration if necessary.

These repair instructions have been prepared with care. Festo AG & Co. KG does not, however, accept liability for any errors in these repair instructions or their consequences. Likewise, no liability is accepted for direct or consequential damage resulting from incorrect use of the products.

The relevant regulations on occupational safety, safety engineering, and interference suppression as well as the stipulations contained in these repair instructions must be observed when working on the products.

## Table of Contents

# 1 Important information

## 1.1 About these repair instructions

This document contains important information about proper repair of the quarter-turn actuator type DFPD.

Before carrying out a repair, these repair instructions must be read in full and followed.

Other documentation for this product:

- Operating instructions (→ [www.festo.com/sp](http://www.festo.com/sp))
- Spare parts documentation (→ [www.festo.com/spareparts](http://www.festo.com/spareparts))

## 1.2 Symbols used

### 1.2.1 Danger categories

The following symbol identifies text passages which draw attention to specific hazards.

**Warning**

### Marking of special information

The following symbols identify text passages which contain special information.

**Note**

### 1.2.2 Repair steps

Familiarise yourself with the meaning of the symbols before starting the repair work.

**Warning**  
There is a risk of injury due to uncontrolled movements of components.

**Reference arrow**  
Symbol indicating the individual components to be noted.

**Linear movement arrow**  
Carry out a linear movement

**Slow movement**  
Carry out the dismantling / assembly step slowly and carefully.

**Reference to repair steps**  
Follow the given repair steps.

**Attention**  
Pay particular attention to notes and information.

**Visual inspection**  
Perform a visual inspection.

**Tools**

Use suitable tools.

**Functional test / start-up**

Follow the functional test / start-up information in the brief instructions (→ [www.festo.com](http://www.festo.com)).

**1.2.3 Cleaning and greasing**

**Cleaning**

The components must be thoroughly cleaned to remove all foreign particles, machining residues and old lubricants before they are greased.

Clean with a soft, lint-free cloth and non-abrasive cleaning agents. Check the compatibility of the cleaning agent with the materials to be cleaned.

**Thin grease film outside**

A film of grease covers the external surface so that the grease colour tarnishes the surface slightly.

Recommendation:

Apply the grease with a soft brush or similar.

**1.3 Text designations used in these repair instructions**

– General lists.

→ Reference to further information

Underlined, blue text indicates a cross-reference or hyperlink that you can click on in the PDF.

**1.4 Tools**

Among other things, the following standard tools are required to repair the quarter-turn actuator:

- Spanner
- Retaining ring pliers for external retaining rings
- Torque wrench

**2 General safety instructions and information**

**2.1 General safety instructions**

**Warning**

Read and follow all safety instructions and information. Failure to comply with these safety instructions and information can result in serious injuries.

**Note**

To achieve ATEX conformity, the toothed discs must be replaced each time the corresponding screws or bolts are loosened. When screwing back in, observe the tightening torques given for the screws.

- The control block may only be repaired by authorised and trained personnel acting in accordance with the requirements in these repair instructions and the brief instructions for the device.

- Pay attention to cleanliness while repairing the quarter-turn actuator. Do not allow dirt particles to get into the quarter-turn actuator.
- A shutdown must be performed before any repair work is carried out.
- Before repairing the quarter-turn actuator, any attachments on it must be dismantled.
- The control block must be completely depressurised and de-energised, and reliably secured against unauthorised restarting before starting any repair work is started.
- Accidental switching on or concealed pressure can trigger unexpected movements during dismantling of the quarter-turn actuator. Therefore, completely vent the quarter-turn actuator before each repair.
- Use original spare parts only to repair the quarter-turn actuator.
- Wear the necessary personal protective equipment.
- In the event of damage to the quarter-turn actuator caused by
  - unauthorised manipulation,
  - non-intended use (misuse),
  - use of non-original spare parts
 all warranty and liability claims against the manufacturer expire.
- The technical documentation required for installation and start-up (functional test) of the quarter-turn actuator must be available.

## 2.2 General information

- Standard tools are needed to repair the quarter-turn actuator, which must be available in a service workshop (→ [Chapter 1.4 on page 6](#)).
- Components and equipment replaced during repair must be disposed of in accordance with the relevant local environmental protection regulations.
- Where possible the repair should be carried out on a stable and flat work surface with space for small parts.
- The figures of the repair steps show size DFPD-300-...-D / S-...-60 (12 installed springs) by way of example. Individual minor differences between the quarter-turn actuator in hand and the illustrated example are possible.
- Depending on the temperature range (standard / T4 / T6), Festo recommends the following lubricants:
  - SYNTHY POLYMER 402/2 (standard variant)
  - HEVOLIT PE 280-1 FG (high-temperature variant T4)
  - RENOLIT SI 300 M (low-temperature variant T6)
- Individual components must be greased when installing the quarter-turn activator. The following table shows the recommended quantity of grease during the entire installation.

Size	Recommended quantity of grease for installation
DFPD-10	2 g
DFPD-20	3 g
DFPD-40	5 g
DFPD-80	7 g
DFPD-120	11 g
DFPD-160	15 g
DFPD-240	20 g
DFPD-300	30 g
DFPD-480	45 g
DFPD-700	55 g
DFPD-900	65 g
DFPD-1200	85 g
DFPD-2300	110 g

### 3 Sizes, part numbers and component lists with bills of material

The component lists with corresponding bills of materials for the following quarter-turn actuators are listed on the following pages:

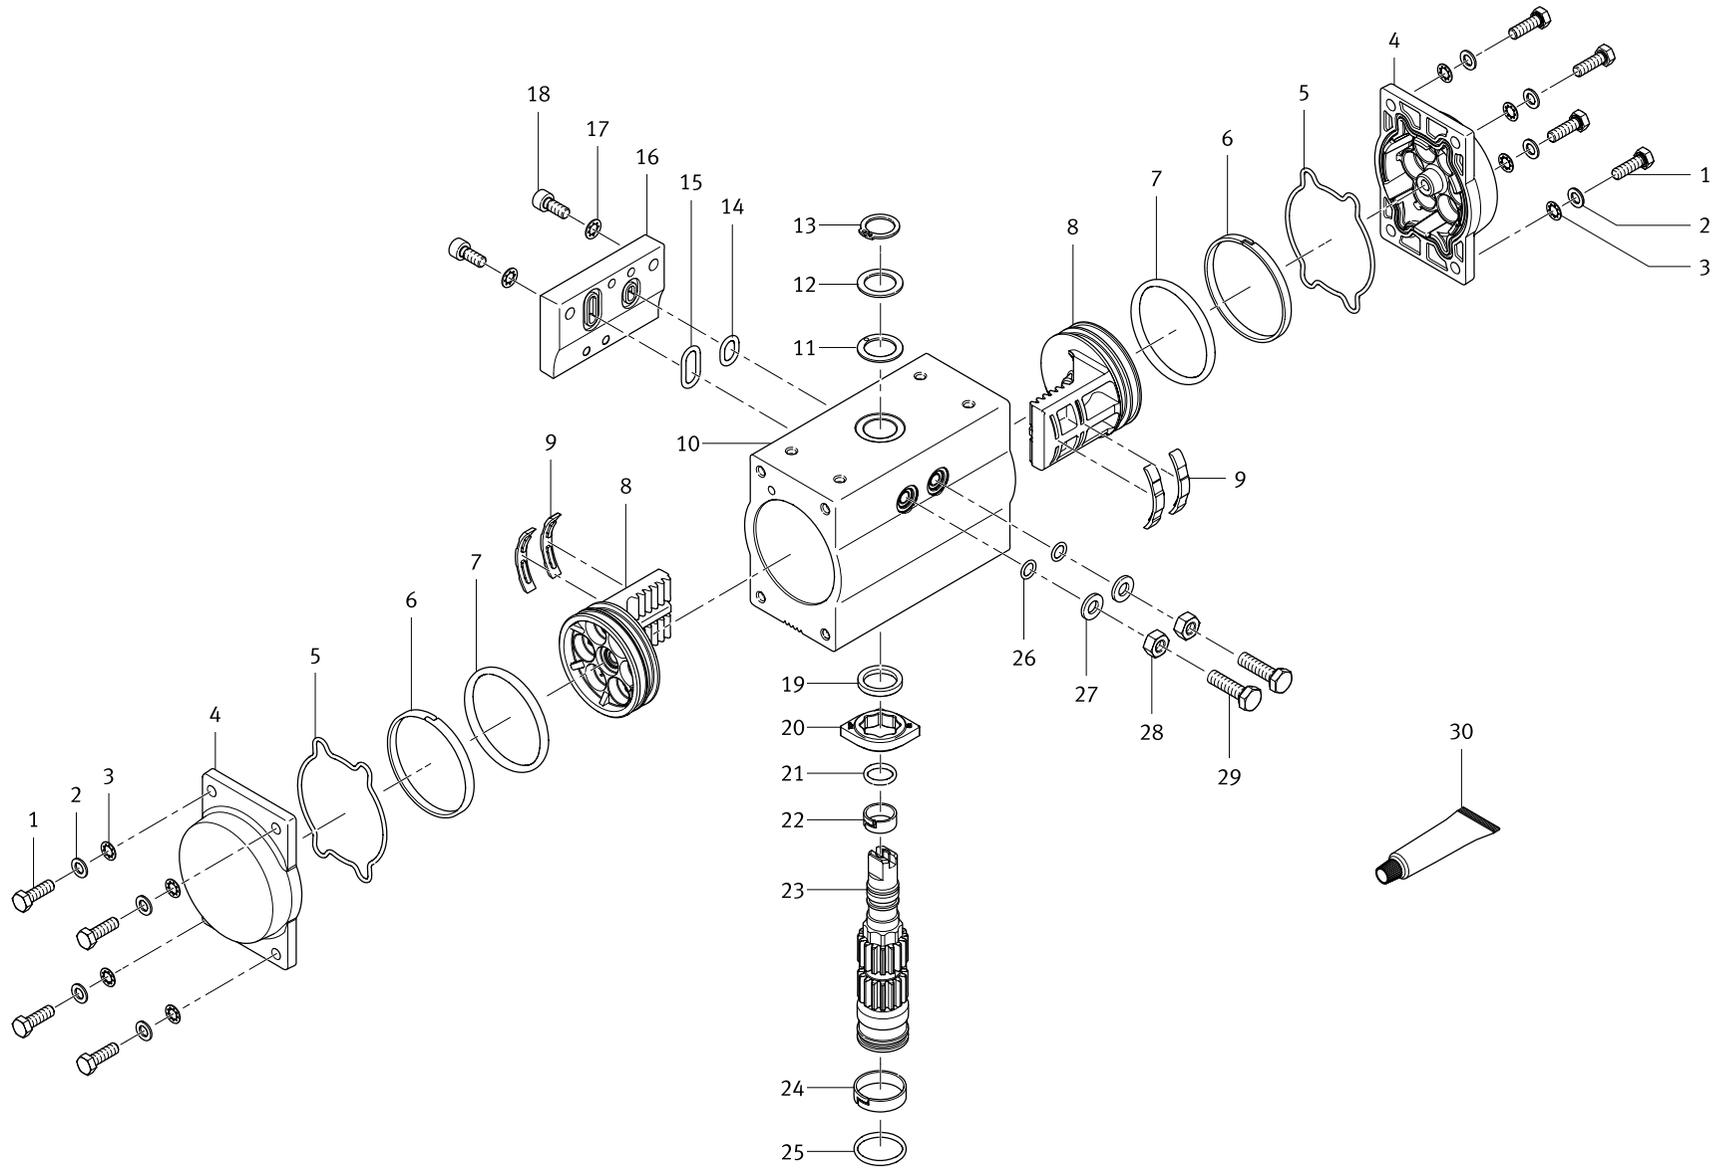

Size	Part number	Components list	Bill of materials
DFPD-10	8042184	→ <a href="#">Chapter 3.1 on page 10</a>	→ <a href="#">Chapter 3.1.1 on page 11</a>
DFPD-20-...-D	8042185	→ <a href="#">Chapter 3.2 on page 12</a>	→ <a href="#">Chapter 3.2.1 on page 13</a>
DFPD-20-...-S		→ <a href="#">Chapter 3.3 on page 14</a>	→ <a href="#">Chapter 3.3.1 on page 15</a>
DFPD-40-...-D	8042186	→ <a href="#">Chapter 3.4 on page 16</a>	→ <a href="#">Chapter 3.4.1 on page 17</a>
DFPD-40-...-S		→ <a href="#">Chapter 3.5 on page 21</a>	→ <a href="#">Chapter 3.5.1 on page 22</a>

### I. Schutzrechte und Nutzungsumfang

Die Datei Ihrer Wahl unterliegt Schutzbestimmungen. Festo oder Dritte haben Schutzrechte an dieser Elektronischen Dokumentation, welche Festo sowohl auf portablen Datenträgern (Disketten, CD-Rom, Wechselplatten), als auch im Internet und/oder Intranet zur Verfügung stellt, im Folgenden stets Elektronische Dokumentation genannt. Soweit Dritten ganz oder teilweise Rechte an dieser Elektronischen Dokumentation zustehen, hat Festo entsprechende Nutzungsrechte. Festo gestattet dem Verwender die Nutzung unter den folgenden Voraussetzungen:

#### 1. Nutzungsumfang

a) Der Verwender der Elektronischen Dokumentation ist berechtigt, diese für eigene, ausschließlich betriebsinterne Zwecke auf beliebig vielen Maschinen innerhalb seines Betriebsgeländes (Einsatzort) zu nutzen. Dieses Nutzungsrecht umfasst ausschließlich das Recht, die Elektronische Dokumentation auf den am Einsatzort eingesetzten Zentraleinheiten (Maschinen) zu speichern.

b) Die Elektronische Dokumentation darf am Einsatzort des Verwenders in beliebiger Zahl über einen Drucker ausgedruckt werden, sofern dieser Ausdruck vollständig mit diesen Nutzungsvereinbarungen und sonstigen Benutzerhinweisen ausgedruckt bzw. verwahrt wird.

c) Mit Ausnahme des Festo Logos ist der Verwender berechtigt, Bilder und Texte der Elektronischen Dokumentation zur Erstellung eigener Maschinen- und Anlagendokumentation zu verwenden. Die Verwendung des Festo Logos bedarf der schriftlichen Genehmigung von Festo. Für die Übereinstimmung genutzter Bilder und Texte mit der Maschine/Anlage bzw. dem Produkt ist der Verwender selbst verantwortlich.

d) Weitergehende Nutzungen sind in folgendem Rahmen zulässig:

Das Vervielfältigen ausschließlich zur Verwendung im Rahmen einer Maschinen- und Anlagendokumentation aus elektronischen Dokumenten sämtlicher dokumentierter Zulieferbestandteile. Die Demonstration gegenüber Dritten ausschließlich unter Sicherstellung, dass kein Datenmaterial ganz oder teilweise in anderen Netzwerken oder anderen Datenträgern verbleibt oder dort reproduziert werden kann.

Die Weitergabe von Ausdrucken an Dritte außerhalb der Regelung in Ziffer 3 sowie jede Bearbeitung oder andersartige Verwendung, ist nicht zulässig.

### 2. Copyright Vermerk

Jedes „Elektronische Dokument“ enthält einen Copyright Vermerk. In jede Kopie und jeden Ausdruck muss dieser Vermerk übernommen werden.

Bsp.: E 2003, Festo AG & Co. KG, D-73726 Esslingen

### 3. Übertragung der Nutzungsbefugnis

Der Verwender kann seine Nutzungsbefugnis in dem Umfang und mit den Beschränkungen der Bedingungen gemäß Ziffer 1 und 2 insgesamt auf einen Dritten übertragen. Auf diese Nutzungsvereinbarungen ist der Dritte ausdrücklich hinzuweisen.

### II. Export der Elektronischen Dokumentation

Der Lizenz-Nehmer muss beim Export der Elektronischen Dokumentation die Ausführbestimmungen des ausführenden Landes und des Landes des Erwerbs beachten.

### III. Gewährleistung

1. Festo Produkte werden hard- und softwaretechnisch weiterentwickelt. Der Hard- und ggf. der Software-Stand des Produkts ist dem Typenschild des Produkts zu entnehmen.

Liegt die elektronische Dokumentation, gleich in welcher Form, einem Produkt nicht unmittelbar bei, d. h. wird nicht auf einem, dem Produkt beiliegenden portablen Datenträger (Disketten, CD-Rom, Wechselplatte) mit dem betreffenden Produkt als Liefereinheit ausgeliefert, gewährleistet Festo nicht, dass die Elektronische Dokumentation mit jedem Hard- und Software-Stand des Produkts übereinstimmt. Allein maßgeblich für den übereinstimmenden Hard- und Software-Stand von Produkt und Elektronischer Dokumentation ist in diesem Fall die dem Produkt beiliegende gedruckte Dokumentation von Festo.

2. Die in dieser Elektronischen Dokumentation enthaltenen Informationen können von Festo ohne Vorankündigungen geändert werden, und stellen keine Verpflichtung seitens Festo dar.

### IV. Haftung/Haftungsbeschränkungen

1. Festo stellt diese Elektronische Dokumentation zur Verfügung, um den Verwender bei der Erstellung seiner Maschinen- und Anlagendokumentation zu unterstützen. Für die Elektronische Dokumentation, die in Form von portablen Datenträgern (Disketten, CD-Rom, Wechselplatte) nicht unmittelbar einem Produkt beiliegen, d. h. nicht mit einem

Produkt als Liefereinheit ausgeliefert wurden, gewährleistet Festo jedoch nicht, dass die separat vorgehaltene/gelieferte Elektronische Dokumentation mit dem vom Verwender tatsächlich genutzten Produkt übereinstimmt.

Letzteres gilt insbesondere bei auszugsweisem Gebrauch für eigene Dokumentationen des Verwenders. Die Gewährleistung und Haftung für separat vorgehaltene/gelieferte portable Datenträger, d. h. mit Ausnahme der im Internet/Intranet vorgehaltenen elektronischen Dokumentation, beschränkt sich ausschließlich auf eine ordnungsgemäße Duplikation der Software, wobei Festo gewährleistet, dass jeweils der neueste Stand der Dokumentation Inhalt des betreffenden, portablen Datenträgers ist. In Bezug auf die im Internet/Intranet vorgehaltene Elektronische Dokumentation wird nicht gewährleistet, dass diese denselben Versions-Stand aufweist wie die zuletzt drucktechnisch veröffentlichte Ausgabe.

2. Festo haftet ferner nicht für mangelnden wirtschaftlichen Erfolg oder für Schäden oder Ansprüche Dritter wegen der Nutzung/Verwendung der vom Verwender eingesetzten Dokumentation, mit Ausnahme von Ansprüchen aus der Verletzung von Schutzrechten Dritter, welche die Nutzung der Elektronischen Dokumentation betreffen.

3. Die Haftungsbeschränkungen nach Absatz 1. und 2. gelten nicht, soweit in Fällen von Vorsatz oder grober Fahrlässigkeit oder Fehlen zugesicherter Eigenschaften eine zwingende Haftung besteht. In einem solchen Fall ist die Haftung von Festo auf denjenigen Schaden begrenzt, der für Festo nach der Kenntnis der konkreten Umstände erkennbar war.

### V. Sicherheitsrichtlinien/Dokumentation

Gewährleistungs- und Haftungsanspruch nach Maßgabe der vorstehenden Regelungen (Ziff. III. u. IV) sind nur gegeben, wenn der Anwender die Sicherheitsrichtlinien der Dokumentation im Zusammenhang mit der Nutzung der Maschine und deren Sicherheitsrichtlinien beachtet hat. Für die Kompatibilität nicht mit einem Produkt als Liefereinheit ausgelieferter Elektronischer Dokumentation mit dem vom Anwender tatsächlich genutzten Produkt ist der Anwender selbst verantwortlich.
