

## Features

- Silver coating approx. 3 g/kg
- Good solderability
- Very good conductivity
- high temperature resistance
- Uninsulated

## RS PRO silver plated Copper Wire Ø 1.5 mm / 1.77 mm<sup>2</sup> 15 AWG, 1 Kg

RS Stock No.: 534-188

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The silver-plated copper wire from RS has a cross-sectional area of 1.77 mm<sup>2</sup> and is made from high-quality copper coated with a fine layer of silver. This combination provides excellent electrical conductivity, high corrosion resistance, and outstanding high-frequency performance. It is ideal for demanding applications in electronics, communications technology, and aerospace.

## General Specifications

Type	Copper Wire
Diameter	1.5 mm
Cross-section	AWG 15 (1.77 mm <sup>2</sup> )
Put-up	1 Kg Ring at 65 m in PE-Foil

## Mechanical Specifications

Conductor	Solid silver plated copper
Material	Electrolytic copper
Structure of conductor	Solid wire
Surface	Silver plated, coating approx. 3 g/Kg

## Approvals

Compliance	CE, RoHS, REACH
Standards Met	Manufactured according to EN 13602 (ETP1) and DIN 46431
