

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **20 mm Length:** Suitable for a wide range of applications, offering versatility in design.
- **28.05 mm Outside Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **21.98 mm Shaft Diameter:** Designed to fit precisely, reducing vibration and noise during operation.
- **Plain Bearing Design:** Offers low friction and smooth operation, enhancing efficiency in machinery.

RS PRO 20 mm Sintered Bronze Plain Bearing, 28.05 mm OD

RS Stock No: 528-332

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for efficient and reliable performance in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear. Ideal for use in machinery where low friction and smooth operation are essential, this bearing ensures optimal performance and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	21.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	28.05 mm
