

SAFECLENS - Anti-Static Screen Cleaner

Product Code

SCS 100

SCS 250

<u>Packagina</u>

100 Impregnated sachets per pack

250 ml Pump action aluminium can

DESCRIPTION

An anti-static screen cleaner developed for daily cleaning of VDU screens, and lap top computers. SAFECLENS is available in sachets containing a presaturated, soft, highly absorbent, non-woven material, or in a 250ml pump action can.

TECHNICAL INFORMATION

Water based solution containing non-ionic surfactants and anti-static agents.

WHERE TO USE

All VDU screens and screen filters, except mesh screens.

Microfilm and microfiche readers.

Mirrors and lenses.

HOW TO USE

Wipe screen thoroughly with impregnated material (SCS 100) and polish off with SAFEWIPES, or spray SAFECLENS (SCS 250) onto SAFETISS, dry immediately using a fresh SAFETISS or SAFEWIPE.

SELLING POINTS

- 1. OEM approved for use on anti-glare coatings.
- 2. Quick and easy to use.
- 3. Reduces the risk of eye strain and errors caused by imperfect visual display.
- 4. Pump action cans for economic use.
- 5. Aluminium can is 100% re-cyclable
