

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, suitable for demanding environments
- **16 mm Length:** Compact design for easy integration into existing systems
- **15.04 mm Outside Diameter:** Ensures compatibility with standard housings
- **9.98 mm Shaft Diameter:** Designed for precise fit and optimal performance

## RS PRO 16 mm Sintered Bronze Plain Bearing

RS Stock No: 528-957

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. Ideal for reducing friction between moving parts, this bearing ensures smooth operation and extended service life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	9.98 mm

## Mechanical Specifications

Length	16 mm
Material	Sintered Bronze
Outside Diameter	15.04 mm
