Article description

- Equipped magazine screwdriver with ratchet function
- For precise work in very confined space
- Very small return angle, practically 0° (not measurable with mechanical measuring equipment)
- Very compact 2C handle with bit storage
- Fibre-glass reinforced nylon and kind-on-hands TPE ensure that optimum pleasant surface feel and ergonomic working
- Rotating ring for clockwise/anticlockwise rotation adjustment, screw tightening also without ratchet function thanks to neutral central position with ratchet lock
- The space-saving yet extremely sturdy mechanism ensures a long service life
- Bit holder with powerful neodym magnet
- With hanging hole
- Content: 12 bits 1/4" (C 6.3) made of high-quality molybdenum-vanadium steel Slot 0.8x4.5 1.0x5.5 1.2x6.5 PH 1 2 3 PZ 1 2 TX T10 T15 T20 T25
