

Datasheet

Grey Single Sided Foam Tape, PVC

RS Stock number [205-0928](#)

Description

Grey medium density PVC foam sealant strip for metal to metal sealing, die cutting and anti-vibration damping applications.

Closed cell construction gives positive seal at only 30% compression

Firm, medium density foam with high internal strength for anti-vibration and sealing applications

Excellent resistance to weather, fungi and oxidation ensures a long seal life

Pressure sensitive adhesive for easy application

Easy peel liner prevents stretching during application

Wide range of applications including containers, computers, appliances, marine, automotive

Specifications

Adhesive Material	Acrylic
Application	Appliances, Automotive, Computers, Containers, Damping, Marine, Sealing
Backing Material	PVC
Colour	Grey
Foam Density	165 → 260kg/m ³
Length	30m
Maximum Operating Temperature	+70°C
Minimum Operating Temperature	-30°C
Tensile Strength	64N/cm ²
Thickness	3mm
Width	12mm
