

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, extending the lifespan of the bearing
- **1-1/4 in Length:** Suitable for a wide range of applications, offering versatility in use
- **1.62 in Outside Diameter:** Ensures compatibility with standard housings, simplifying installation
- **1.37 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing ease of use

## RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 558-557

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in various industrial settings. Its compact design ensures easy integration into existing systems, providing smooth operation and reducing maintenance needs.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.37 in

## Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	1.62 in
