

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and longevity, reducing maintenance needs.
- **10 mm Length:** Suitable for compact applications, saving space without compromising performance.
- **11.04 mm Outside Diameter:** Ensures a snug fit in housings, enhancing stability.
- **6.98 mm Shaft Diameter:** Compatible with standard shaft sizes, facilitating easy integration.

RS PRO 10 mm Sintered Bronze Plain Bearing

RS Stock No: 528-247

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it ensures durability and optimal performance in various industrial settings. Its compact design makes it ideal for use in tight spaces, providing smooth operation and reducing wear on moving parts.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	6.98 mm

Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	11.04 mm
