Exacompta is committed to reducing the ecological impact of its products, and in particular its plastic document protectors.

This view rack is made entirely of recycled polypropylene from post consumer waste which has been collected, sorted and reused. This is a real revolution in the protection and presentation market, where plastic remains essential.

Cover in 4/10th semi rigid PP with Opak grain. Durable grained pockets with beautiful transparency and easy insertion.

To choose your document protector, identify the number of pages in your file and choose the capacity accordingly. 1 cover = 2 views (front and back).

This product is Blue Angel certified, the most demanding label for recycled products, which guarantees the use of post-consumer recycled materials.
