RS Stock No: 894-6803

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO Steel Bright Zinc-Plated Gate Spring, 200 mm

This RS PRO spring is a handy fastener that allows your gate to close on its own after being left open. It's made from bright zinc-plated steel for strength and resistance to corrosion, so it's a durable choice for use in demanding environmental conditions.

The spring comes with a tensioning rod so you can increase or decrease the rigidity or pull on the spring. The included rivets and screws also make it easy to install the spring at your desired location. Simply use a cordless screwdriver for a secure connection. For high elastic tolerance, the spring has a free length of 200 mm, meaning you can loosen or tighten it without risk of damage.

General Specifications

Material	Made of steel
